Shiva Sanjay N D

Fresher, AI & Web Developer, Technical and Non-Technical Trainer

shivasanjay9255@gmail.com
7373382999
Perundurai, Tamilnadu, India
https://shivasanjay.vercel.app/

What drives me is building solutions that work in the real world. I have a strong foundation in programming and web development, with knowledge of Odoo, Salesforce (CRM), n8n workflows, and Cybersecurity. I enjoy exploring emerging technologies to build practical, user-focused solutions. Beyond development, I stay consistent with fitness and Kho Kho, where I actively lead a team, strengthening leadership, discipline, and teamwork.

Experience

Xenovex Technologies Chennai
Intern 1 Month

Projects

Fitlee 2025
Prize-winning fitness web application featuring an NFT-based reward system to gamify user engagement and milestone tracking. Integrated an AI chatbot for personalized fitness guidance with a focus on usability and innovation.

Zyvox AI 2025
Team-developed AI travel assistant built using n8n to automate personalized trip planning workflows. Deployed as a WhatsApp Business bot to provide users with real-time travel suggestions and itinerary generation.

FADE 2025
Developed an Instagram Fake Account Detection Engine using machine learning to analyze profile authenticity, generate real-time risk scores, and identify suspicious accounts through an interactive 3D user interface.

INGRES 2026
Designed and developed an AI-powered chatbot for the INGRES platform, enabling intelligent groundwater data retrieval through natural language queries with multilingual support.
